Live Shop Learn
at a single destination.

Polaris is the social heart of Melbourne's inner north, shining a new light on connected urban living.

Currently Polaris has 26 national and local retailers, beauty specialists, eateries and cafés. 9 new shops are currently under construction. Upon completion there will be 35 retailers and 1000 residences.

Entering its fourth year of operation, Polaris' carefully considered Masterplan is the result of a decade-long dream to create an iconic Melbourne lifestyle destination in a fast growing inner region.

Situated on the doorstep of La Trobe University, and with over 25 established retailers, cafés and restaurants, Polaris brings together diverse social experiences and a range of retail options within contemporary, design conscious public spaces that encourage connection.

Demand for residential property in Bundoora is on the rise! A recent, 2015 report from Real Estate Investor ranks Bundoora as 7th in Australia (1st in Victoria) for rental growth in townhouses*. This, along with a ground breaking re-sale of a Stellar Townhouse (an increase of over 10% in just 2 years), means there's never been a better time to invest in Polaris.

Future releases are coming soon!

Current Projects at Polaris

ASPIRE

19 Townhouses & 20 Apartments

Blending parklife with modern convenience, this premium townhouse and apartment precinct at Polaris is a crafted blend of heritage architecture and contemporary design. Bordering open green spaces and a thriving town centre, Aspire benchmarks highly sustainable urban living without compromising on luxury.

Appointed builder, Alliance CG has begun bulk basement excavation works and in-ground services installation commence shortly. Construction of ground floor slabs is next on the list and with works already ahead of schedule we are looking to late 2017 for completion.

Vista Townhouses

VISTA

24 Townhouses

A premium, parkside neighbourhood set within Bundoora's Polaris has already reached record sales results since launching earlier this year. The spacious, multi-level townhouses have been a welcome new arrival to the area where price growth for houses has reached record levels in recent years. Providing the convenience of apartment living with the luxurious amenity of a house, the fast selling townhouses are now set for construction to commence in the second half of the year.
