Autumn Cycling Classic @

Community Minded at Polaris

Polaris 3083 is the inner north's largest master-planned precinct that proudly supports the locals. Last month, as part of our community centred approach we partnered with La Trobe University and Northern Combine Cycling to help bring not one, but two vibrant, local events to life.

The Autumn Cycling Classic event saw 300 enthusiastic cyclists racing around 3 kilometres of fully closed roads in an effort to integrate cycling into our city. Many more local spectators were drawn to the event which offered insightful information on bike maintenance and exposure to university life. As part of its ongoing sponsorship of the La Trobe University Football Club, Polaris 3083 also sponsored the football clubs family and friends day. The event gathered the local community to watch the senior teams play, whilst providing entertainment for spectators

throughout the day. Polaris proudly supported both events and presented information on its remaining Eclipse heritage apartments and townhouses, as well as Lunar apartments to spectators. Polaris' close proximity to La Trobe University campus has seen our retail offering enhance the lifestyles of students at the university with restaurants, cafés, amenities and shops all within reach. Students, teachers and workers at the university have found its appeal exceptional with a number choosing to reside at Polaris.

Feeling Peckish?

In early June Healthy Fusion will begin serving a delicious range of nutritious Japanese meals that are perfect for a quick and easy lunch on the go. Soon after, Flippin Burgers will also start trading. We cannot wait to try the tasty burgers in a delicious brioche bun. These new eateries will join over 35 retailers, cafés and specialty stores alongside Woolworths and Dan Murphy's in the Polaris town centre.

The Polaris Town Centre will soon welcome the opening of two highly anticipated, new eateries which each boast a uniquely delicious menu for the local community to try.
