ABOUT DEALCORP

At Dealcorp, we are dedicated to building a better urban landscape in Melbourne. Since establishing our business in 1984, we have completed over 50 successful projects, including some of Melbourne's best-known landmarks.

We are specialists in private property development and investment. Our primary work is within the retail, residential and commercial sector. Over the past three decades, we've built up a portfolio that's as diverse and exciting as Melbourne itself.

From award-winning masterplan communities in Bundoora to top-end penthouse towers in South Yarra, we work with prominent architects and consultants to create long-lasting contributions which benefit the wider community.

35 YEARS OF
AWARD-WINNING DEVELOPMENT

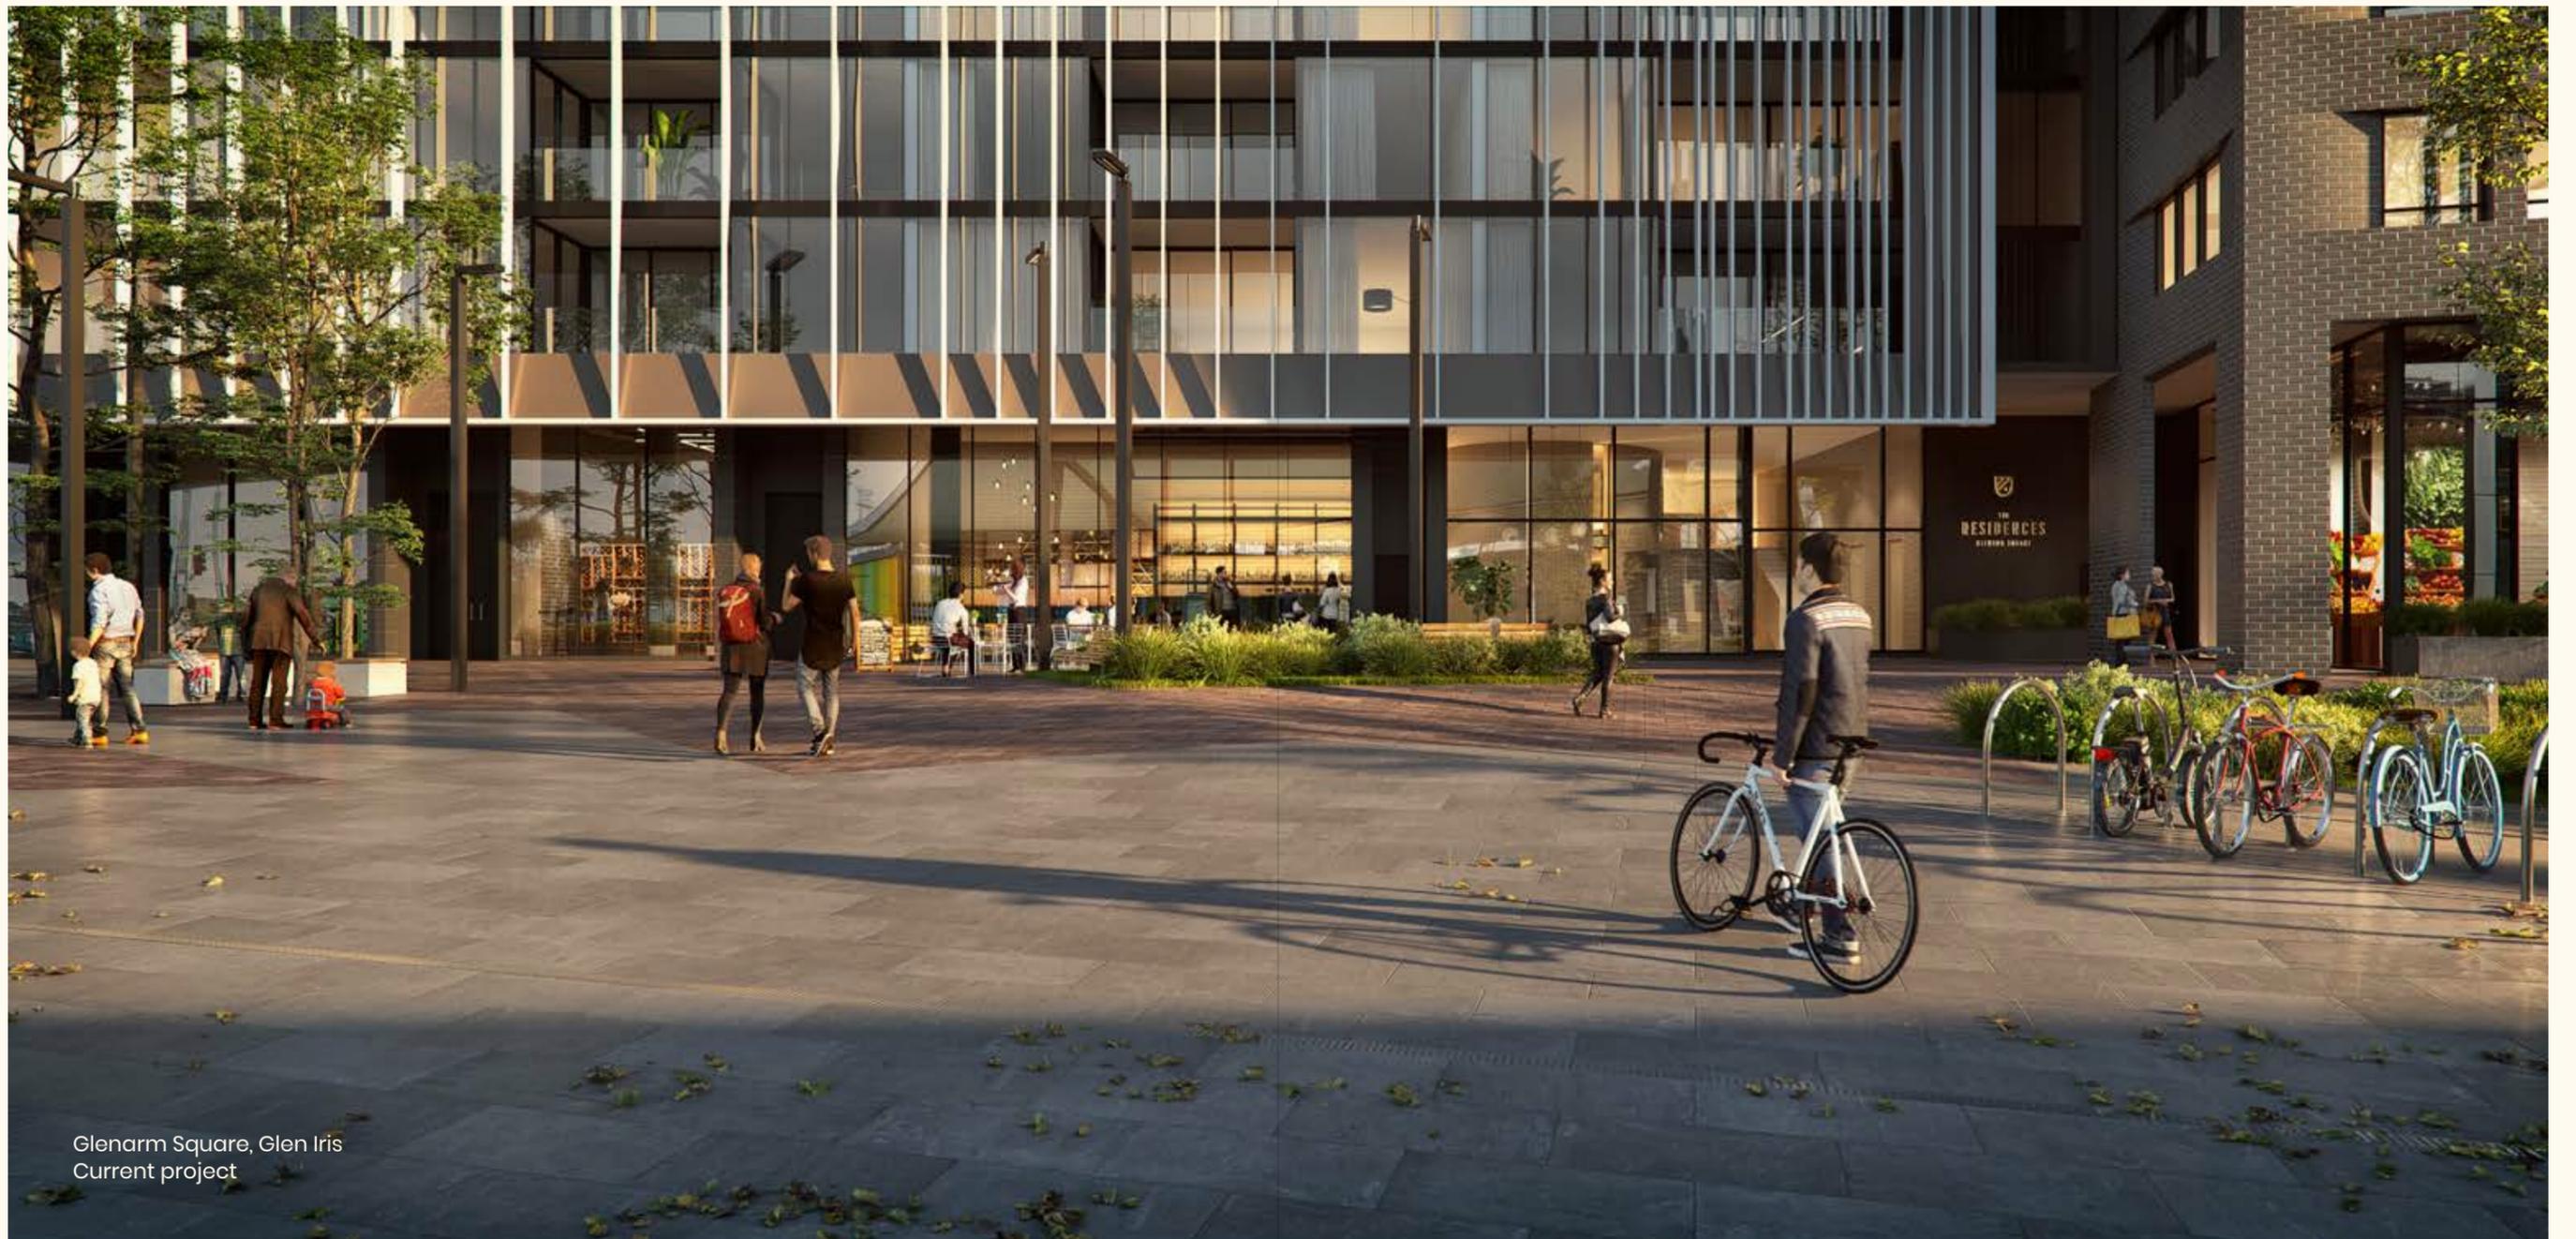

Dealcorp was established in 1984 by our Executive Chairman, David Kobritz, who inherited a love of property from his father.

The business grew organically and has become one of the most respected names in the property industry, with an unflagging reputation for delivering remarkable outcomes.

At Dealcorp, we deliver value, innovation and support that lasts far beyond the final delivery of a project. Our business is about more than building property – it's about building lasting relationships with our partners, consultants and clients.

OUR CLIENTS

Our client-focused approach is a major key to our ongoing success in the development and construction industry. We recognise that each site, each project and each client is different. We understand that buying property can be daunting, and draw upon our extensive experience within the industry to educate and empower our clients throughout the entire process.

As a forward-thinking business, we believe that you—the client—have a right to know how your investment is being managed. We offer specialised client services and educational sessions for clients who want to learn more about architecture, construction, sustainability and design. We don't follow the standards set by other developers – instead, we aim to be leaders in the property market.
